

Policies of Research Advisory Committee

Research is the backbone of academics. It simplifies concept building and transforms new ideas into innovations in pursuance of a new era of passion for research. The Research Cell aims to nurture research culture in the students and faculties. This enhances budding academicians ' general research capability by participating in conferences, seminars, workshops, research paper competitions, Faculty Development [FDP] etc.

Objectives of the Committee

To establish a framework to promote research as one the thrust areas of development and encourage young researchers and faculties to advance further in their academic career at Sree Narayana Guru College of Commerce.
