2022-23

The Memorandum of Understanding (MoU) between the Establishment of Bhojraj Scholarship and Sree Narayana Guru College of Commerce was established with the primary objective of providing financial support to meritorious yet economically weak students pursuing undergraduate studies at Sree Narayana Guru College of Commerce. The scholarship aimed to alleviate the financial burden on deserving students and enable them to access quality education.

The Memorandum of Understanding between the Establishment of Bhojraj Scholarship and Sree Narayana Guru College of Commerce underscores the commitment of both parties to promote access to education and support the academic endeavors of economically disadvantaged students. **By awarding scholarships to 38 meritorious students** in the academic year 2022-23, the program has made a tangible difference in enabling students to pursue their undergraduate studies without financial barriers.

This collaboration exemplifies the importance of public-private partnerships in fostering education and empowering students from underprivileged backgrounds to achieve their academic aspirations. As the scholarship program continues its efforts to support deserving students, it is crucial for both parties to evaluate the effectiveness of the program and explore opportunities for further expansion and outreach in the future.

THIS DEED WITNESSES AND IT IS MUTUALLY AGREED BETWEEN THE PARTIES, AS FOLLOWS.

Period of MOU:

This Memorandum of Understanding shall be valid for a period of one year from the 02 March, 2022 to 01 March 2023 & can extend for more with Mutual consent, subject to the following terms and conditions mutually agreed upon by both parties. The key objective is to spread awareness about the vocational courses offered by DBM India subjected to the conditions mentioned herewith in this agreement. ABOUT DBM INDIA:

DBM INDIA (DBM) is a humanitarian organization working to create lasting change in the lives of children, families and communities living in poverty & injustice.

DBM INDIA serves all people regardless of religion, caste, race, ethnicity or gender. It is under the legal umbrella of Navarushti International Trust and has set its objective as creating HungerFree- Communities. With a modest beginning of providing Mid Day meals in one school to 50 children, the organization has grown to a commendable force having its own infrastructure facilities providing education, health care, livelihood skills, empowerment and placements. Although initially the focus of the organization was on dealing with the issue of hunger, experiences at ground level drew to light that along with providing meals to arrest malnutrition and child mortality we also need to address issues that are the background reasons which are actually preventing our progress and development.

The Sustainable Development Goals (SDGs) are designed to end poverty, hunger, AIDS, and discrimination against women and girls, adopted by United Nations in 2015 as a universal call to action to end poverty, protect the planet, and ensure that by 2030 all people enjoy peace and prosperity. There are 17 goals that are integrated to eradicate the problems mentioned above. And we are working on two of Sustainable Development Goals (SDGs), i.e., Goal 1- NO POVERTY and Goal 4- QUALITY EDUCATION.

About the intervention:

DBM India is presently running a training center at Chembur, Navi Mumbai where various skill courses are being provided to the deserving youth. Under the center the courses are being provided in collaboration with industry leader NIIT. The successful completion of these courses will help the students in getting a job. DBM India will be facilitating job placement of the students.

- Health Care Informatics
- E – Commerce logistics
- BFSI (Banking ,Financial services and Insurance)

As part of this partnership:

2. The students pursuing their Final year Graduation and post-graduation can enroll in courses conducted by DBM.
3. These courses are being offered by the NGO free of charge for the college students. There will be a screening process and if the student is selected for that particular course.
4. The dates and timings of these awareness sessions will be mutually decided by the representatives of the two organizations.

5. Representatives of DBM INDIA will be using awareness material including pamphlets, slides, standees and stalls for the sessions/workshops and will remove the same after the sessions.
6. They need to produce their offer/appointment letter to the NGO after placement.
7. Each course duration will be of three months, every day Monday to Friday 2 hours each day and on Weekends life skill training will be conducted by the NGO.

Requirements from College:

1. Access to students for spreading awareness about the vocational/skill courses being offered by DBM India.

The terms and conditions of this agreement shall be valid until the fulfilment of the said purpose, as may be expressly provided in this agreement. Provided, however, that this agreement may be terminated by either party by providing a notice period for three months to the other parties upon failure of the other party to observe or perform any of its covenants, duties or obligations under this agreement.

Report: Enhancing Employability through Programming Analytics and Research

[PAR]2023-24

The Labour Market Research Facility (LMRF) of the School of Management and Labour Studies at the Tata Institute of Social Sciences (TISS) in Mumbai recently concluded the second batch of its esteemed Programming Analytics and Research (PAR) program at the Sree Narayana Guru College of Commerce (SNGCC), Mumbai, on 14th February 2024. This program, aimed at equipping students with essential skills in research and analytics, witnessed the graduation of twenty-four successful candidates.

College has conducted an aptitude test for selecting eligible students based on question paper provided by TISS. 107 students appeared for test and selected 47 students scored who 50% and above marks in the test. However TISS wanted a batch size of 30 students, so further filtered 30 students based on merit. Regular lectures were conducted in our computer lab .

This year, Voluntās, Denmark based consulting firm, collaborated as the research partner, elevating the skilling aspect by providing students with the opportunity to engage in live research and analytical projects. This partnership not only enhanced the practical exposure of students but also bridged the gap between academia and industry. Students were taught research methodology and also involved in data collection and got hand on training experience in research.

The certificate distribution ceremony, a significant milestone for the graduating students, was gracefully organized at SNGCC. Prof. Bino Paul, a distinguished faculty member from the School of Management and Labour Studies, presided over the event and handed over the certificates of completion to the deserving students. The presence of eminent personalities including Dr. Rahul K.S. and other Research Officers and trainers from TISS, Mr. Nouman Chishti, and Mr. O.K. Prasad from Voluntās Group, Mr. Chandran from Sree Narayana Mandira Samiti, and Dr. Ravindran Karthadi and Dr. Jayashree V. from SNGCC, added prestige to the occasion. 24 students got certificates and letter of appreciation from Voluntas team.

The PAR program is strategically conceptualized as an employability enhancement initiative, aiming to nurture students' skills to meet the demands of the contemporary job market. Through a combination of theoretical knowledge and hands-on experience, the program has consistently delivered tangible results of high industrial standards among its learners. The dashboards shared during the ceremony provided concrete evidence of the program's effectiveness in achieving its objectives.

The success of the PAR program underscores its significance in addressing the evolving needs of the workforce and preparing students for the challenges of the digital era. By fostering a culture of innovation, critical thinking, and collaboration, the program has not only empowered individuals but also contributed to the overall growth and development of the industry.

In conclusion, the completion of the second batch of the PAR program marks a significant milestone in the journey towards enhancing employability and fostering excellence in research and analytics. The collaborative efforts of academic institutions, industry partners, and dedicated faculty members have played a pivotal role in shaping the future of aspiring professionals in the field of programming analytics and research.

Ltd. for the academic year 2022-23. A total of 101 students participated in the visit, which included tours of key industrial facilities and significant cultural sites.

The students first visited Friends Engineering Company in Amritsar, where they gained valuable insights into the manufacturing processes of various machinery, such as die punching machines, hot foil stamping machines, sheet lamination machines, thermal lamination machines, paper cutting machines, and die cutting machines. The company provided a comprehensive overview of the production procedures, enhancing the students' understanding of industrial operations and machine fabrication.

The students visited the Golden Temple and Wagah Border in Punjab, experiencing the spiritual and patriotic heritage of the region. Their journey continued with visits to Solang Valley, known for its snowy landscapes, and Polly Road and Hadimba Temple in Manali, providing a blend of natural beauty and historical significance.
